# INTRODUCTORY.

We again appear before our patrons, and present the forty-fourth annual volume of the Troy Directory. Although its title bears the imprint of Troy, yet, upon its pages may be found a complete guide for all enquirers within a range of more than eight miles, embracing all the surrounding towns included in that territory, with the respective callings and locations of 24,740 different individuals and firms. Of this number the Troy city and Lansingburgh department contains 16,747, the West Troy department 3,363, and the Cohoes city department 4,630, showing a steady increase in the population of each of these cities and towns.

While we are ever using our utmost endeavors to make this work as perfect and complete as it is possible to do, yet our experience teaches us that one cannot be printed which will be absolutely so, for changes always have and will continue to occur daily throughout the year, so that it is simply impossible to have a Directory which is perfect, even on the day that it is issued, and we often receive notice of changes made during the progress of our printing which came to us too late for insertion. We have for a number of years kept a list of errors, and complaints made by parties who have discovered them in our book; and we are happy to state that the errors that have been pointed out to us during the past year, in the previous issue, have been few indeed, and of an unimportant character, and we trust they will be less with each issue, as we intend to use every effort in our power to make it what it should be, a useful and reliable book of reference.

During the past year there have been more elegant stores erected in our city than in any previous year, and with the single exception of the new Savings Bank building, at the corner of State and Second streets, named in the preface of our last issue, all are completed and many of them occupied; and probably before our next volume appears, that too, will stand out as a monument to its projectors, and a pride to our city, as well as an architectural beauty in its design. The present year, although there are many improvements going on in and about the city, will not be so prolific of expensive edifices as the past year.

At the last session of the legislature a charter was granted for the erection of a bridge from the foot of Congress street, across the Hudson to a point opposite that locality, connecting our city with West Troy, and we learn that the directors are pushing the work forward as rapidly as is consistent with the best interests of the enterprise. We learn that it is to be built of iron, and that it is to be a first class structure in all respects.

The past year has gathered from among those whose names appeared in the first Directory, of 1829, to their final homes, the following: Rev. N. S. S. Beman, Elijah Galusha, Ralph Hawley, Dr. F. B. Leonard, Alfred T. Purdy, G. V. S. Quackenbush and Charles Stickney. We have recently learned that Mr. Enoch Jackman and Mrs. Clarissa Gurley, whose names appeared in the first issue, were not included in our list prepared in the volume of 1869, but whose names still appear as among our citizens in the present issue.

Typographically the present volume is a decided improvement over previous editions, new fonts of type having been procured expressly for this work. A Street Directory has also been added which will prove a great convenience. Although the improvements have caused an increased outlay, the price of the book remains the same as it has been for many years. In this connection we desire to institute a comparison between the price of the Troy Directory and others published in this vicinity. In Hudson, Newburgh, Poughkeepsie, Binghamton and Kingston, five places whose combined population is less than that included in the territory we canvass for this publication, each book sells at the same price as the Troy Directory, two dollars, while the price of the Syracuse Directory is two dollars and fifty cents, that of Rochester three dollars, and that of Utica three dollars; and they all fall far short of the Troy Directory in the number of names they contain. It is our purpose to insert a new map of the city in our next year's publication, the cost of which, together with other greatly increased expenses since the price of the Directory has been changed, will render it necessary to advance the price next year.

The longest name in the Directory is *Featherstonhaugh* (Cohoes department), and while we have lost Mr. *No*, our shortest name last year, we still have three who are *Short*, followed by one who boasts of *Shortsleeves*. The *Smiths* are of course the most numerous, numbering 166 in Troy alone, but *John Smith* is far eclipsed by *John Kelly*, who appears twenty times, and with an initial letter twice more. Among other peculiar names, we have one noted for *Goodness*, and another for *Goodwill*, while one is put down as a *Goodsell*; still another enjoys the reputation of being *Twogood*. We find a *Bride*, who is also a widow, followed closely by a *Bridegroom*, but *Matrimony* is to be found only in Cohoes; two *Faces* are to be seen, but only one *Head*, with a single *Hair*, and although the Directory claims but one *Foote*, yet it stands firmly upon a solid foundation; another fact which appears incredible is that there is only one *Gentleman* in the city of Troy. The colors are represented by *Black, Brown, Gray, Green, Lavender* and *White*.

Our file of Directories has often been consulted by persons for obtaining information that could not be obtained elsewhere, and those who wish are invited to call and examine or refer to them, at our store.

WILLIAM H. YOUNG & BLAKE.

TROY, *June* 20, 1872.

# BRÖNNER'S

## PATENT

# Gas Burner & German Globe.

MANUFACTORY, FRANKFORT ON THE MAIN,
GERMANY.

## BACON, STEENE, & CO.,

Sole Agents for the United States and Canada.

## TO THE PUBLIC.

Gas Engineers, Proprietors of Railroads, Manufactories, Hotels, Churches, Theatres, and Public Buildings,

**Your attention is respectfully called to the advantages attained by the use of Brönner's Patent Burner and German Shade, effecting an immense economy of Gas, varying from 20 to 30 sometimes 40 per cent, and even more, besides which there is obtained a softness, brilliancy, and steadiness of light unequalled by the ordinary burners in general use.**

*Brönner's Burners are so constructed that the Gas is allowed to pass out of the orifice from which it is emitted, without that disagreeable hissing sound, so inseparable from most other burners: and the flame thus produced is kept perfectly steady by the Brönner shape Globes which accompany the Burners, avoiding the unsteady and flickering light so common with most gas lights. The almost entire absence of heat and of smoke, makes this Burner peculiarly valuable, in addition to the large saving of gas produced by it, causing the gas to be consumed as fast as emitted, instead of allowing it, as usual with other burners, to be propelled into the atmosphere to the injury of health and furniture.*

**This Burner is used very extensively in Europe and New York, and is the most popular in the market.**

***A liberal discount offered to the trade.***

**BACON, STEENE, & CO., 543 Broadway, New York.**

# STREET DIRECTORY.

GIVING the name of each street, and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Second street No. 168 comes, you look at Second street, on page 13, and find that Liberty street crosses at 158, and Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

### REQUIREMENTS FOR ADMISSION.

Previously to examination the candidate must present testimonials of good moral character to the Director of the Institute.

For admission to Division D, at the opening of the Winter Session, the candidate must be at least sixteen years of age, and pass satisfactory examinations, in Arithmetic, Geography, English Grammar, including Spelling, five chapters of Davies' Bourdon's Algebra, and three books of Davies' Legendre's Geometry. For admission to advanced standing, at the opening of either the Winter or Summer Session, the candidate must be correspondingly older, and pass satisfactory Examinations in the same, and also in all the previous studies of the Division which he proposes to enter. These examinations are extended and rigorous, including both Principles and Practical Examples.

### SESSIONS AND VACATIONS.

The Scholastic year is divided into two Sessions of twenty weeks each. After the first, or Winter Session, there is a vacation of one week; and after the second, or Summer Session, there is a vacation of eleven weeks.

The Scholastic year of 1872-73 will commence on the 11th of September, 1872.

**TESTIMONIALS.**

Having attended an examination in Mathematics in Prof. Willson's school, I take pleasure in expressing my great satisfaction with the manner in which it was conducted, and with the excellence of the result. The thorough knowledge of principles exhibited by the members of the class, and their ready command of them in practical application, were a sufficient indication of the discipline they had received in this department of their training. I cordially recommend the school as one well worthy of general patronage.

TROY, June 30, 1859.

DASCOM GREENE,
*Prof. Mathematics, &c., Rens. Pol. Inst.*

It is with great pleasure that the undersigned, having attended an examination in the classics, held at Troy Academy, on the 7th of June, 1864, express their appreciation of the results of the training under Prof. Willson. The proficiency, both in the Latin and Greek languages, attained by those who received instruction from him, their familiarity with the various forms, and their exactness in translation, testified in no doubtful manner to the diligence and tact of their instructor. It should be stated in connection with the above, that the recitations were from portions of the works selected by the committee at the request of the Principal, and that no opportunity was given for any other preparation than that already furnished by the discipline of the session.

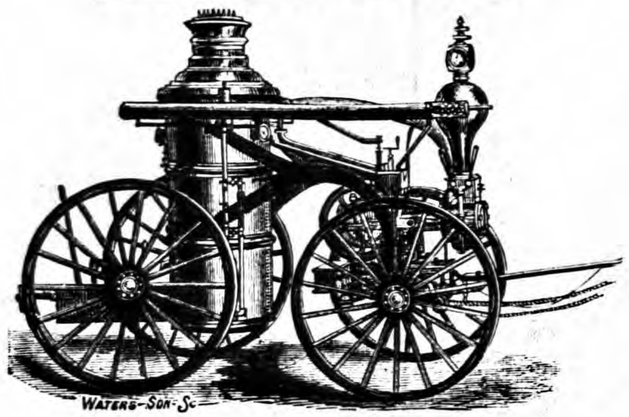
# STEAM FIRE ENGINES.

# BUTTON ENGINE WORKS,

ESTABLISHED 1834.



We are Manufacturing

## THE LIGHTEST, SIMPLEST, MOST POWERFUL, MOST DURABLE,

## And Easiest Handled Engine in Use.

It is the only Crane Neck Engine with 4 ft., 6 inch front wheels, and the only one which has no weight on the arched frame. Besides having no oscillating motion when in operation, it has fewer working joints, and is consequently less liable to get out of order than those of any other Manufacture.

**Every Working Joint, and every Packing about the Engine can be "Set up" when worn!**

WE ALSO MAKE AND FURNISH

There are four deliveries daily between Hoosick and Ida streets. Carriers leave the office as follows: At 7.30 a. m., 10.30 a. m., 2.30 p. m. and 5 p. m. Two deliveries, viz: at 7.30 a. m. and 2.30 p. m., in Fifth, Sixth and Tenth Wards. Letters collected from street boxes on return from each trip. In addition to the above named deliveries, special deliveries will be made on the arrival of every important mail, on River street between the bridge and Ferry street, on Fulton street and on Broadway. ☞ This mode of delivering letters is equally as safe and expeditious as delivery at the Post Office. It also saves the time and trouble of calling at the Post Office after the arrival of each mail.

### SENDING MONEY BY MAIL.

Money should never be enclosed in an ordinary letter. The Post Office Department has devised two methods for the safe transmission of money, one of which should be invariably used. A list of money order offices will be found at the Post Office. When the office to which it is desired to send money is not a money order office, persons should avail themselves of the provision for Registering Letters. Letters may be registered and thus sent with safety to any Post Office in the United States, Canada, Great Britain, and most foreign countries at a trifling cost.

This Company owns and controls the entire water power of the Mohawk River at Cohoes, and has constructed one of the *finest Dams and Gate Houses* in the country to divert the water of the river to their canals, of which they have a series, so as to use the water under six different falls, having an aggregate head and fall of one hundred and twenty feet.

The company lease the water power with the lot at the rate of about *twenty* dollars per annum for a *horse power*. The power costs *less than one-third* of the cost of steam power, and is always ready and reliable.

Only about two-thirds of the available power is at present used, thus affording a large amount of power still available for manufacturing purposes.

Cohoes being centrally located, with easy facility for Railroad, Canal and River transportation to market, makes it one of the most desirable points for manufacturing in the United States.

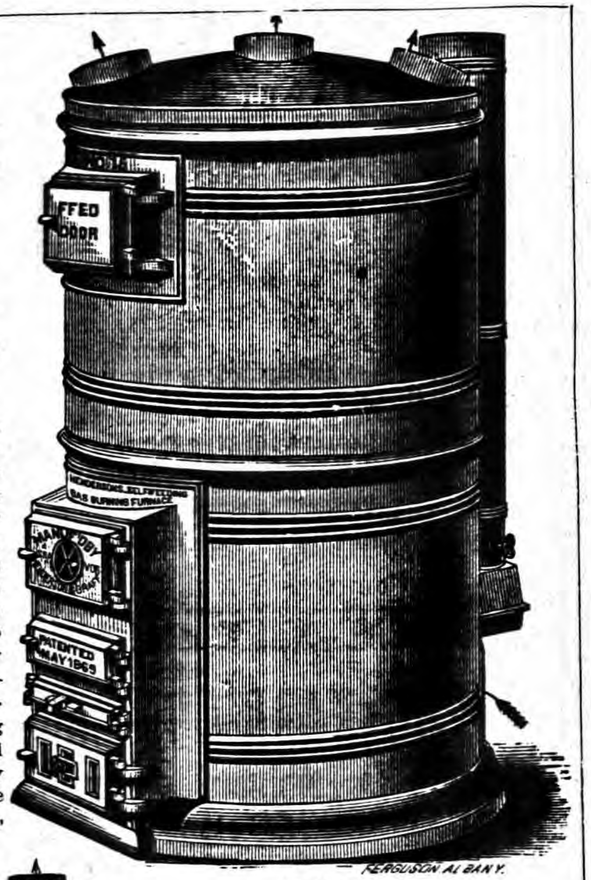
FIVE SIZES

# Lively Times Self-Feeding FURNACES,

PERPETUAL BURNER.

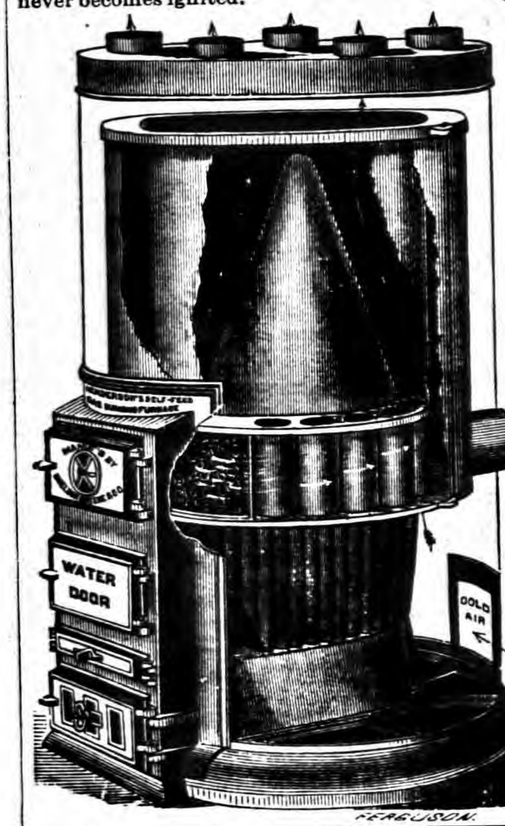
Either Brick or Portable.

J. C. HENDERSON'S Patent.



**Henderson's New Self-Feed & Gas Burning FURNACE.**

The Furnace is constructed with a Magazine for reserve coal, which makes it a perpetual burner, and only needs to be seen to be appreciated. It is so constructed as to produce THE MOST PERFECT COMBUSTION OF THE FUEL. A GAS RING SURROUNDS THE TOP OF THE FIRE POT, AND LOWER PART OF THE MAGAZINE, and as fast as the gas envolves from the coal it is forced to pass through a strata of air, highly heated, causing a most perfect consumption of all the volatile, combustible gases in the fuel, thus producing more heat from a given amount of coal burned than can be equalled by any other Heater made. The coal in the feed or Magazine above the Gas Ring never becomes ignited.



FOUR SIZES

# Cone Furnaces!

EITHER BRICK OR PORTABLE.

J. C. HENDERSON'S Patent.

HENDERSON'S

**NEW CONE FURNACE.**

In Churches and other public buildings, where a very powerful Heater is required. there is none that surpasses the Henderson Cone Furnace; it generates a very pleasant and exceedingly large volume of pure warm air, and no Heater in use is more easily managed. Four sizes are made, to be set either portable or in brick, as may be desired.

Testimonials and references of the highest character furnished if desired.

# BUERK'S

# Watchman's Time Detector.

THIS WATCH-CLOCK was introduced to the public in almost every section of the United States and Canadas, about ten years ago; and it has proved itself to be the best invention in the world for testing the faithfulness of Watchmen. Since its introduction, the Proprietor has improved on some parts and corrected deficiences which have been suggested by using it; and he has now a perfect check upon the Watchman. With other clocks, a regular routine has to be followed; but with this, a Watchman can be ordered to visit any particular place as often as required, without being compelled to go to places where it is not necessary to visit as often.

The instrument is complete in itself, portable, and as reliable as the best lever watch.

It is not so likely to become disarranged in its works as a good watch, because its parts are stronger; but, when it needs cleaning, any common watchmaker can adjust it, its mechanism being simple.

It requires no fixtures or wires communicating from room to room, as is the case with the ordinary Watch-Clocks; a small, inexpensive, stationary key is alone required at each station.

Its use is not restricted to a single building; and places can be guarded that it would be impossible to guard with any other instrument, such as Railroad Tunnels, Bridges, Yards, Shops, &c.

The instrument will, in all cases, be warranted perfect and satisfactory. Its price is invariably

## Seventy-Five Dollars, Cash on Delivery,

Including as many Keys as are requisite, not exceeding twelve.

This Watch-Clock is sold at a less price than any other in the market.

The DETECTOR is used extensively by large Manufacturing Establishments and Railroad Companies in the United States, from whom numerous testimonials have been received.

N. B.—Parties purchasing these Clocks should test them sufficiently in the counting-room or office, as they will not be taken back after having been injured by the Watchman through carelessness.

All communications promptly attended to.

ADDRESS:

## J. E. BUERK, Proprietor,

47 CONGRESS STREET, BOSTON.

*P. O. BOX, No. 1057.*

N. B.—It is very essential to carry the clock secure, taking care that it is not brought in contact with any hard substance, and thereby broken. I have on hand POUCHES, with Straps to go over the shoulder and around the body, which I will send with the Clock, if ordered. Price $2.50.

***This DETECTOR is covered by two U. S. Patents. Parties using or selling these instruments without authority from me will be dealt with according to law.***

The above ales are warranted to be made of nothing but pure malt and hops, brewed in the most scientific manner with great care, which are no doubt the best reasons that can be given to recommend the same to Dealers and Families as the best that can be had.

**READ THE FOLLOWING AND JUDGE FOR YOURSELF.**

TROY, April 10, 1871.—Mr. Hoellinger, Dear Sir:—The ale you sent me to try, I consider it a very well brewed article, and can recommend it to those who use Malt Liquors, as a pure, wholesome and pleasant beverage.
JAMES THORN, M.D.

TROY, April 13, 1871.—I herewith take pleasure to certify that I have carefully examined, and tried the Export Ale manufactured by John C. Hoellinger of this city, and have full reason to recommend the same as a delightful, nutritious table beverage, and a pleasant strengthening tonic, also adapted for the weak and debilitated, especially nursing mothers.
HERMAN GNADENDORF, M. D.

TROY, April 10, 1871.—Mr. Hoellinger, Dear Sir:—It gives me great pleasure to recommend your Bottled Ale for family use, but especially adapted for invalids.

**Cannon Place Blank Book Store, Cannon Place Stationery Store,**
**Cannon Place Book Store, Cannon Place Paper Store.**

It has for years been the aim of the proprietors to make Cannon Place Store a model in its capacity to supply its customers with every article they could reasonably expect to find in a well-appointed Book, Paper and Stationery Store.

With this object in view, they have been continually adding new lines of goods to their assortment, and have so organized and systematized their business as to insure a more full and complete stock always on hand than can usually be offered.

## A Greater Range of Goods can be found at 9 and 10 Cannon Place than in any other Store of the kind in the State.

This, we think is a fact; for even in New York City one finds it necessary to visit one book store for School Books; another for Sunday-School Books; another for Music Books; another for English Books; and still another for Medical Books; a Blank Book establishment for Blank Books, Drafts, Notes, Diaries, &c.; a Stationer's for Law Blanks; a Retail Stationery Store for Fine Stationery, Initial Stamping &c.; an Engraver for Wedding or Calling Cards; a Toy or Fancy Store for Croquet or other games; and to a Paper Warehouse for Wrapping, Roll or Printing Paper, Bags, Direction Labels, and Tags; and would be put to their wit's end to find

**NUMEROUS OTHER ARTICLES WHICH HELP MAKE UP OUR STOCK.**

As an evidence that the public appreciate our endeavors to suit them in goods, prices, and style of dealing, we quote the fact shown by the annual report of sales made to the revenue department, viz., that H. B. Nims & Co.'s sales are greater than those of any Bookseller in the State, with one exception, out of the city of New York.
